Role/Responsibility: *Support Staff*

Date: *April 23, 2026*

Target to Accomplish: *Filming of scene add-ons/reshoot of scenes | WEEK 3*

Narrative Accomplishment:

On this day, our team conducted additional filming and reshot selected scenes for our film, running from 10:00 AM to 7:00 PM. Since my scene was not scheduled for shooting on this day, I took on a supporting role instead, assisting the actors in carrying out their parts effectively. Every member remained committed to their responsibilities throughout the process. Despite some challenges along the way, we managed to complete all planned scenes. It was an overall productive day that moved our film project forward.

Role/Responsibility: Actor

Date: May 4, 2026

Target to Accomplish: Reshoots of scenes / small added shots | WEEK 4

Narrative Accomplishment:

On this day, our team reshot several scenes and captured small additional shots to further develop our film. This was the day I fulfilled my acting role, portraying Dexter, the biological father of Marco. My scene was part of a flashback sequence that establishes the reason behind Marco's desire for revenge, eventually in this scene my character dies, so this is the day where I only do my part as an actor. Since my involvement was focused entirely on acting, I dedicated the day to performing my role as effectively as possible. The filming proceeded well, and the team successfully completed the required shots, bringing the project very close to its final stage.

Date: *May 8, 2026*

Target to Accomplish: *Finalization of Film | WEEK 5*

Narrative Accomplishment:

On May 8, 2026, our team held our final filming session, lasting from approximately 11:00 AM to 7:00 PM, to wrap up the last remaining scene of our film. As part of the support staff, I contributed by preparing fake blood using food coloring, doing my best to make it appear as realistic as possible for the scene. Everyone stayed cooperative and focused throughout the long shoot. The filming went smoothly, and we successfully completed all the necessary shots, marking the end of our film production. After wrapping up, we packed up and headed home, satisfied with what we had accomplished.

Date: *May 9, 2026*

Target to Accomplish: *Editing Week | WEEK 6*

Narrative Accomplishment:

On May 9, 2026, our team transitioned into the editing phase of the project, as all filming sessions had already been completed. The team worked on organizing the scenes, reviewing the footage, and refining the overall flow of the story to ensure a coherent and polished output. As a support staff member, my involvement during this week was minimal since the editing was primarily handled by those assigned to that task. I contributed where I could while the team continued making necessary adjustments in preparation for the final submission.
